

Mainline Tint Unit - Leading UK Tinting System

6 pot

9 pot

12 or 15 pot

Manufactured in the UK

Crafted at our on-site workshop,
ensuring top-notch quality.

Choice of Sizes

Choose from 4 different sizes to fit your
needs.

Installation Options

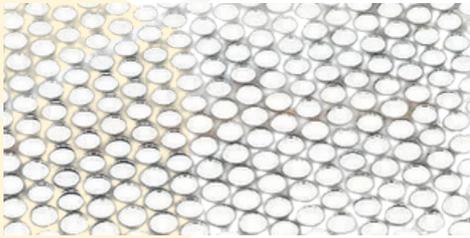

Bench top or counter sunk options
available for versatile setup.

Even Temperature Distribution

Equipped with a full coverage element
for consistent temperature across the
entire unit.

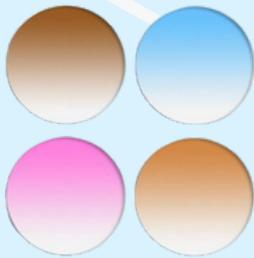

Premium DURAN Glass Beakers

Our tinting units use only DURAN glass beakers, renowned for their stability, excellent workability, and high thermal shock resistance.

Element Protector Meshes

These meshes fully cover the element, preventing damage and ensuring beakers do not come into direct contact, thus avoiding tint burning.

Compatible with Standalone Graduating Units

Designed to seamlessly integrate with standalone graduating units for enhanced functionality.

Internal Thermal Cut-Out Safety Devices

Each unit is equipped with internal thermal cut-out safety devices that automatically shut off electrical power in case of emergency, ensuring your protection.

In house service available to keep your unit in tip top condition
